

Prof. Dr. Damjana Drobne

Positions held at the Biotechnical Faculty, University of Ljubljana:

- (2009-present) **Vice President of the Programme Council for the Doctoral Study Biosciences**
- (2009-2016) **Head of the Doctoral Study committee**
- (2008-present) **Head of the Research group for Nanobiology and Nanotoxicology**
- (2008-present) **Full Professor of Zoology**
- (2007-present) **Full Professor of Toxicology**
- (2006-present) **Coordinator of the scientific area Biology within the Doctoral Study Biosciences**
- (2004-present) **Vice Head of the Department of Biology**

Education:

- (1996) **PhD in Environmental Toxicology** from the Biotechnical Faculty, University of Ljubljana; title of the thesis: The Toxicity of Zinc to Terrestrial Isopods
- (1992) **MSc in Biology** from the Biotechnical Faculty, University of Ljubljana; title of the thesis: Morphology of Digestive Tract and Accumulation of Heavy Metals in the Digestive Tract of Isopods
- (1989) **BSc in Biology** from the Biotechnical Faculty, University of Ljubljana

Awards:

- (2015) **Faculty award for outstanding scientific, academic and profesional work**
- (2009) **Best 5 advisers of the year** selected by the [Slovenian society of young researches](#)
- (1995) **SETAC Young Scientist Award** for the best presented paper at 5th SETAC Conference in Copenhagen

Partnerships in large EU projects:

- (2015-2019) Horizon 2020 NanoFASE
- (2015-2018) Horizon 2020 MSCA-ITN-2015; Marie-Sklodowska-Curie Actions; Pandora
- (2013-2017) Large-scale integrating [EU FP7 project NanoMile \(310451\)](#)
- (2011-2015) Large-scale integrating [EU FP7 project NanoValid \(263147\)](#)
