

Kiyofumi KATAGIRI, *Department of Applied Chemistry, Graduate School of Engineering, Hiroshima University, Japan*

Biography

Kiyofumi Katagiri (born in Gifu, Japan in 1975) is an Associate Professor in the Department of Applied Chemistry, Graduate School of Engineering, Hiroshima University, Japan. He received his BEng degree from Osaka Prefecture University, Japan (supervisor: Prof. T. Minami), and his MEng and PhD degrees from Nara Institute of Science and Technology, Japan (supervisor: Prof. K. Ariga). He spent two years as a postdoctoral fellow at The University of Melbourne, Australia (supervisor: Prof. F. Caruso.). He also stayed at Toyohashi University of Technology, Japan as a postdoctoral fellow and Nagoya University, Japan as an Assistant Professor. He joined Hiroshima University in 2011 and was appointed to the Associate Professor since 2014. He received D. R. Ulrich Award in 2007 from International Sol-Gel Society, and the CerSJ Awards for advancements in ceramic science and technology in 2009 from the Ceramic Society of Japan (CerSJ). His current research interests include biomimetic materials and organic-inorganic nanohybrid materials based on supramolecular chemistry, colloid and surface chemistry, and sol-gel technology.
