

Prof. Barbara Malič is Scientific Councillor and Head of Electronic Ceramics Department, Jožef Stefan Institute, Ljubljana, Slovenia and Professor of Chemistry of Materials at Jožef Stefan International Postgraduate School, Ljubljana, Slovenia. She obtained her PhD (1995) in Chemistry at the University of Ljubljana, Slovenia.

She is author or co-author of about 250 papers, 10 book-chapters, more than 150 technical reports, 1 EU and 4 Slovenian patents, with H-index of 29. Her research topics include lead-based and lead-free ferroelectric, piezoelectric and electrocaloric ceramics, solution-derived thin films and inkjet printed nanostructures. She has been active in EC FP, ESA, ERANET, bilateral and national research projects.

She is member of the Council for engineering sciences of the Slovenian Research Agency, deputy vice-president of Ferroelectrics Committee of IEEE Ultrasonics, Ferroelectrics and Frequency Control Society, and a member of the Scientific Committee of COST: European Cooperation in Science&Technology.

She is recipient of Zois recognition for achievements in research of ferroelectric ceramics and films (2010) and Honourable Guest Professor of Shizuoka University, Japan, for outstanding performance and contributions in the field of chemical processing of thin and thick films (2014).
